

Powering your business with renewable energy?

A row of white wind turbines is silhouetted against a clear blue sky. The turbines are positioned on a dark, rolling hillside. The largest turbine is in the foreground on the right, while several smaller ones recede into the distance to the left.

Your customers want proof
That proof has a name

REGO

The renewable acronym
you need to know

So, what is REGO?

Renewable Energy Guarantees of Origin

It's a certificate that shows your energy really comes from renewable sources.

Why it matters

REGO gives your business proof it's powered by renewables.

You can share this in your sustainability messaging and show customers you're serious about greener choices.

Ready to power your
business with 100%
renewable energy
backed by REGO
certification?
